

Escaped foster dog still missing

Please help us bring her home!

Hera is a 38-pound female dog with **incredible baby blue eyes** that lived for 3 years on a 5-foot chain with very little social interaction. She is one of a group of 24 huskies that were taken in by Alberta rescue groups in late July. She was assessed as gentle, but **extremely** cautious of people. On Aug. 20/09 she escaped the yard of her foster home and has been living for many weeks in the area of 167 Avenue (50 to 82 streets). As far as we know she is still alive and perhaps living off mice or garbage. She has been sighted many times, but always runs away. If you see her, **please try to keep her in sight (but do not chase) and call Troy at 780-951-5647** or leave a message with Second Chance Animal Rescue Society at 780-466-7227
